DEATH OF THE "WELSH FASTING GIRL."

The London papers announce the tragical end of a strange imposture. More than two years ago a girl of eleven years, named Sarah Jocobs, the daughter of a small farmer in an obscure village of Wales, took to her bed, after vomiting blood, and never afterwards left it except when she was lifted out. It was soon announced that she took neither food nor drink, and thousands came to see what was popularly regarded as little short of a miracle. The child was exhibited lying in her bed dressed as a bride, and with a wreath of flowers around her head. The parents derived quite a little revenue from the offerings of sympathetic visitors. They declared that she took no sustenance whatever. Once a fortnight her lips were moistened with water.

Several investigations were made at various times by more or less skillful observers, and a watch was set upon the room, but nothing suspicious was discovered. It seems, however, that no examination was made of the bed, until a short time ago four experienced nurses were sent down from Guy's Hospital to sift the case, in concert with a local committee and several men. The room and bed were minutely examined, and on the 9th of December the nurses began their watch. No food was discovered, and it was made morally impossible that any should be secretly introduced. So far the investigation may be called a complete success, but after some days the girl began to show symptoms of starvation. The parents were urged to give her food, but refused. On the 17th she died, delirious. The cruelty of the parents who, if the story be correctly told, subjected their child for two long years to the torture of this living death, and finally caused her death in the agonies of starvation, is justly the subject of severe reprobation. But is nothing to be said, of the Guy Hospital authorities and the "local committee" who permitted the cruel test to be carried out to the dreadful end?

LADIES AND LAUDANUM.

A New York correspondent writes the following: Happening into a drug store, a woman stood at the counter waiting while the druggist weighed a portion of a dark mass for her. It was opium. Seeing our attention attracted to it, the woman, who was evidently one of the laboring class, paid her money hastily, with "don't wrap it up," seized it and hurried out of the store.

In conversation with the druggist he informed us she was a confirmed opium eater; that nightly she spent twenty-five cents at his store for opium. He had at least twenty regular customers who ate opium, and all of them belonged to the middle or laboring classes; that nineteenths of all opium eaters he knew were women, and one-third of them were colored women.

Some old colored women were inveterate takers of laudanum, and he cited one who regularly came every three days and purchased a dollar's worth of laudanum with money made by washing. Another of his customers, a white woman, drank habitually four ounces of laudanum a day.

On her first coming to his store she asked for two ounces, and on receiving it, greatly to his alarm, had put the bottle to her mouth and quaffed it at a draught. As they became more confirmed in the habit, they preferred, he said, morphine, because of its greater strength.

He accounted for the use of the drug by this class of persons by the fact that they were often exposed and contracted neuralgia, when opium and laudanum were administered by physicians to allay pain or grant sleep, hence they resorted to it as a relief, and eventually become confirmed slaves to the poison.

THE WONDERS OF THE WORLD.—This world of ours is filled with wonders. The microscope reveals not less than the telescope, each at either end of creation. In this insect creation, particularly, there is so much to know that has never been dreamt—wheels within wheels, without computation of number. Let us take a rapid glance at the proofs of this statement. The polypus, it is said, like the fabled hydra, receives new life from the knife which is lifted to destroy it. The fly spider lays an egg as large itself. There are 4,041 muscles in a caterpillar. Hooke discovered 14,000 mirrors in the eye of a drone; and to effect the respiration of a carp, 13,300 arteries, vessels, veins, bones, &c., are necessary. The body of every spider contains four little masses pierced with a multitude of imperceptible holes, each hole permitting the passage of thread; all the threads, to the amount of 1,000 to each mass, join together when they come out and make the single thread with which the spider spins its webb; so what we call a spider's thread consists of more than 4,000 united. Leuwhencock, by means of microscopes, observed spiders no bigger than a grain of sand and which spun threads so fine that it took 4,000 of them to equal in magnitude a single hair.

A ROMANTIC HISTORY.—The history of the present representatives of the Dukes of Galliese of Italy is romantic, and may not be uninteresting. When the French besieged and took Rome, in 1849, there was a very good looking sergeant major of dragoons, named Hardouin, who commanded a picket near the Altems Palace. The old Duchess of Galliese, who lived there, was childless, toothless and sympathetic. She saw the handsome Frenchman, and proposed a marriage. Hardouin, a sharp Norman peasant by birth, saw the advantage in perspective, jumped at the offer, and espoused the dowager, the Pope having first authorized him to assume the name and the title of the Galliese, which would otherwise have become extinct. After ten years of wedded bliss the old Duchess was gathered to her fathers, leaving everything she possessed to her husband, who had always been attentive, kind and devoted to her. The Duke mourned the proper number of months, and then took another wife. Strange to say, he passed by all the swells, and chose one of the [illegible], and so, by a singular chance, these two, of whom neither possessed a drop of blue blood in their veins, find themselves at the very top of the social ladder, and the owners of one of the finest estates in all Italy.

A drunkard was found lying in the Pottsville grave yard, and when taken in charge by an officer he claimed to be a petrified giant.

THE HOLDEN-SHOFFNER BILL.

We propose once more, some comments on the military bill, as it is called, pending before the Legislature, and made the special order for Thursday next; not that we imagine for a moment that our remarks will have the slightest weight with the Executive or the Legislature, in regard to their action on the subject, because the passage of the bill is a *party necessity*, forming the basis of the only hope of success they have in the next election. Our present remarks, therefore, are offered for the consideration of the public, to have what influence they are entitled to, when the men who are urging this thing shall again be before them for approval or condemnation.

We have before alluded to the dangerous attack which this bill contemplates on the Magna Charta of liberty, that great charter incorporated into the constitution of the United States and of this and all the other individual States, which secures to every citizen the enjoyment of the rights of life, liberty and property, until this right is forfeited by crimes against the body politic, which crimes are to be fully established by evidence before a jury of peers of the accused, after a formal accusation based on affidavit. An inspection of the bill will show that it jumps over all these safeguards thrown around the citizen for his protection; seizes him without affidavit, takes him to a distant point for trial; thus overleaping all constitutional safeguards, and caps the climax of tyranny by depriving him of the right of the writ of *habeas corpus*, by which he might secure a speedy hearing and, if innocent, a speedy acquittal.

Now, there either is or is not, just grounds for the extraordinary measures contemplated by this bill. The advocates of it say it is necessary to protect citizens and secure an enforcement of the laws.—This we emphatically deny. Two instances have occurred in the State, in which, if ever such powers as this bill gives, were likely to be necessary it would have been apparent.

The first is that of the notorious John Everett, of Halifax, who, after firing a bullet through the crown of his own hat, as every one acquainted with the affair believes, rushed to Raleigh and got an order from Gov. Holden for a Company of militia to protect him, and the Attorney General to go down and try the Ku Klux, who, he said, were determined on taking his life. The militia were sent, and the Attorney General was sent. Everett swore out writs against some thirty citizens of the county, and the Attorney General wanted to send the militia with the Sheriff to arrest them. The Sheriff declined their assistance, stating that he apprehended no difficulty in arresting any man against whom Everett had sworn out a writ. He did arrest every man of them and brought them to Weldon, without the first shadow of a show of resistance. Everybody knows the result of the affair—Everett ran away from the investigation he had himself sought, and left the State when he found that the investigation was likely to inculpate him instead of those he accused. He afterwards returned to the neighborhood where he has remained unmolested ever since.

The other case we allude to is the Lenoir county affair. This has been claimed as the hot-bed of Ku Kluxism, by the very men who are seeking to pass the odious militia bill. Has there been any resistance to the execution of the law there? Was not every man accused of crime easily and peaceably arrested by the civil officers?

We assert, without fear of contradiction, that there has not been a single instance in the State, in which an officer has been resisted in the arrest of any one against whom a writ has been issued.

But it is designed by this bill to go beyond the ordinary course of civil law—it not only intends to arrest and punish the known perpetrators of crime, but to go further, and without affidavit, to arrest men on *mere suspicion*, and take them off to some distant point for trial. There lies the danger. No man is safe from the suspicion of some ill disposed neighbor, and under this law, every man's liberty and life is at the mercy of any man, black or white, who may happen to have a grudge against him.

There are aspects of this question which we do not think it prudent to portray fully, but they will present themselves to the mind of ever thinking man. It is said the bill is designed to secure a faithful execution of the law, we think it will have a fearfully contrary effect. A man, knowing his innocence, about to be arrested, without affidavit on mere suspicion, with the power this law gives, of being removed to some distant county, beyond the reach of acquaintances, friends, witnesses and counsel, will be much more likely to resist than he would if he knew he would have an early opportunity, under the provisions which the law and constitution give him, of a speedy trial and an early establishment of his innocence. And when every man in a community feels that his turn may come next, there is much more probability of continued resistance than there is now.

But the bill will doubtless pass, and to those who pass it, will cling the crime of fastening this odium upon the State; they have already brought the State to the point of financial ruin, they have ruined her credit; they have burdened her people with taxation, and it needs but this one act of declaring the State in such a condition as to require the strong arm of the military to maintain order, to complete the ruin they have so successfully begun. Who will come to North Carolina and bring their capital, and invest in our lands and mines when the Legislature declares by a solemn act, that life and property are here so unsafe as to necessitate such a bill as Shoffner's?

We declare to the world that the bill is unnecessary; we declare to the world that the reasons urged for its adoption, by its friends in the Legislature and the Governor's organ, to be false; the Sheriff of Wake, in a published communication, says they are false, for he says "a man is as safe in North Carolina as in any Northern State;" the Sheriff of Jones says they are false, for he says, the disorders that heretofore agitated the country are passing away, and quiet is being restored; the Grand Jury of Chatham, on oath, says they are false; the *Standard* itself, on the 23rd of December, said they were false, as we have heretofore shown.

But the necessities of the Radical party requires its passage; that party cannot live without some excitement of the kind, and so, the Radical party will pass the bill, in despite of reason, truth, the constitution, or anything else, even if the peace of the State, her material interest and the liberty and safety of her people are all wrecked by it.

SPANISH DESPOTISM IN THE BAY.—The Spanish gunboats in the bay, says the *N. Y. Herald* of the 5th, do not seem to be in a fair way to reach Cuba for some time; for even if Mr. Delamater's bill is settled, the Americans among the crew will probably all desert and leave the vessels helpless.—Three of these men, who had been acting as engineers on board the gunboats, arrived in this city yesterday and made statement before Commissioner Shields of outrages and barbarity on the part of the officers which, if true, should subject them to severe punishment. Commissioner Shields said the State courts alone had jurisdiction in the matter, and it is to be hoped that they will take some action in reference to it immediately.

NEW YORK LEGISLATURE—REPEAL OF THE FIFTEENTH AMENDMENT—RATIFICATION.

ALBANY, January, 5.—In the State Senate to day Senator Tweed's resolution repealing the ratification of the fifteenth amendment by the last Legislature was, after considerable debate, adopted—the vote standing 16 to 13.

In the Assembly a resolution was introduced declaring the income tax unconstitutional, and requesting the congressional delegation to oppose its re-enactment.

The Assembly this afternoon concurred with the Senate in the repeal of the ratification of the fifteenth amendment, the vote standing 66 to 56.

LEGISLATURE OF MAINE—NOMINATION OF MR. MORRILL FOR U. S. SENATOR.

AUGUSTA, January 5.—Both branches of the Legislature organized to-day. Hon. William W. Bolster, republican, was elected president of the Senate, and Hon. Reuben Foster, republican, was elected speaker of the House.

At a joint caucus of the republican member of the Legislature, held at the capitol this evening, several of the State officers were renominated, and Hon Lot M. Morrill was nominated by acclamation as United States Senator to fill the unexpired term of the late Senator Fessenden. M. O. Brackett, Wm. Dearing, Wm. Rogers, Asa Abbott; E. R. Spear, J. W. Pates and D. Hubart were nominated this evening by the republicans as executive council for the present year.

THE CASE OF JACOB RICHARDSON—HEAVY PENALTY.—The case of Jacob Richardson (col.), who was charged with committing a deadly assault upon the person of Mr. A. Leseman some weeks since, was yesterday tried before Judge Cantwell in the Special Court. The jury rendered a verdict of guilty, and Richardson was sentenced by the Court to five years imprisonment in the State penitentiary. The prisoner craved an appeal to the Supreme Court, which was granted, and a bond of $100 required to cover the costs of the appeal. It was also ordered that the defendant be released from custody on giving bail in the sum of $1,000. This Richardson has not yet done and was yesterday again committed to jail.—*Wil. Jour.*

ELECTION IN FAYETTEVILLE.—From a gentleman who was present at the Municipal election in Fayetteville on Monday, we learn that the entire Republican ticket was elected. For Mayor, D. J. Underwood, the Republican candidate, was elected by a majority of 87 over T. C. Lutterloh, candidate on the "Citizens' ticket," and the vote for the Board of Commissioners did not vary more than four or five from that cast for Mayor. The following comprise the new Board, James Banman (col.) A. J. Chestnut (col.) A. G. Thornton, ("butter, ball" col.,) Dr. C. W. Woolan, J. W. Hopkins, John Watson, M. N. Leary, Jr., (col.—*Wil. END OF THE PARAGUAYAN WAR.—The Paraguayan war is at an end. The allies have captured Ygnatimi, and Lopez is a fugitive in Bolivia. We have had many announcements before of the final defeat of Lopez, but this news bears evidence of being authentic. The Brizilian, Argentine and Oriental troops are about to withdraw from Paraguay, and the Orleanist Prince d'Eu, commander in chief of the allied armies, was expected at Montevideo at the latest advices. The war now closed has been waged against Lopez for exactly five years. Hostilities between Brazil and Paraguay commenced on November 11, 1864, when a Brazilian steamer was captured as an intruder on the Paraguay. Brazil was invaded by Lopez in December. In the following April the dictator invaded the territories of the Argentine republic, which immediately made an alliance with Brazil. Since that time the war has been stubbornly contested on both sides, Lopez falling back saliently from point to point before the superior power of the invader, but never without desperate fighting. The war has been a terrible drain on the allies, but it has resulted almost in the depopulation of Paraguay, and the utter ruin of its material interests.—*New York World.*

MEETING IN CHATHAM.

Editor Sentinel:—Pursuant to previous notice, a very large assemblage of the citizens of Chatham county convened in the Court House in Pittsboro, on 1st January, 1870, for the purpose of expressing their views of an act now pending in the Legislature entitled "an act to secure the better protection of life and property."

On motion of Colonel Henry A. London, Hon. Abram Rencher, was called to the chair and R. James Powell, requested to act as secretary.

The chairman, in his usual forcible, clear and eloquent style, explained the object of the meeting; when, on motion of John Manning, Jr., Esq., the chair was requested to appoint a committee of seven to draft resolutions expressive of the sense of the meeting.

The chairman announced the following committee, viz: John Manning, Jr., J. G. Rencher, George P. Moore, James Pace, Hasten P. Straughan, Caswell Bynum, and Col. H. A. London.

During the absence of the committee on their report, Col. John A. McDonald, was called for and entertained the meeting in a speech of some length—he was decidedly opposed to the passage of the bill. After which the committee reported the following preamble and resolutions through their chairman, John Manning, Jr., which was adopted without a dissenting voice:

WHEREAS, Some evil minded persons have articulated reports detrimental to the good name of Chatham county and, Whereas; the Legislature of our State has under consideration several matters of great importance to all her citizens, and whereas; it is not only the privilege, but the duty of good citizens to assemble and make known to their representatives and the State at large, their feelings and opinions upon all matters touching their interest; and whereas; moreover, the unimpassioned voice of the people should and will be a safe guide and counsel to our legislators, therefore,

Resolved, That we, the people of Chatham county, have assembled, without regard to party, and unbiased by political prejudice, do, of our own knowledge declare, that the charges brought against our county, of being in a state of insurrection, or evincing any disposition to resist the execution of law, or cherishing any hostility to the State or Federal authority, when lawfully and honestly exercised, are wholly false and groundless; that whatever acts of lawlessness have been committed in our county, that have not been punished by due process of law, have been done by unknown parties; and there has not been a single instance of resistance made to the officers of the law in the discharge of their duties, by the citizens of Chatham county.

Resolved, That the bill now pending in the Legislature entitled "an act to secure the better protection of life and property," and commonly known as the Shoffner bill, if made a law, will be dangerous to the lives, liberty and property of North Carolinians, subversive of the rights so dearly bought for us by our ancestors—hostile to a republican form of government, and in direct violation of the spirit and very letter of the constitution of the State, which provides that "*the privilege of the writ of habeas corpus shall not be suspended.*"

Resolved, That Mr. W. T. Gunter, one of our representatives, for his manly and patriotic vote against this Shoffner bill, has merited our thanks and commendation.

Resolved, That the constitution of the State requires that an election for members of the General Assembly shall be held "on the first Thursday in August in the year one thousand eight hundred and seventy and every two years thereafter" and that any attempt on the part of this present General Assembly to hold over for a longer time than the first Thursday in August, 1870, would be in violation of both the language and the interest of the constitution—a fraud upon their constituents and deserving the reprobation of the good people of the State.

Resolved, That in a Republican government all private and public wrongs are to be righted in and by courts of justice alone; all political grievances discussed publicly before the people and redressed by a manly exercise of the elective franchise; and we therefore disapprove of all secret political organizations, and we call upon all good citizens to lend their aid and influence against the commission of any and all acts of violence.

Resolved, That our representatives in the Legislature be instructed to act, and use their influence in accordance with the above resolutions, as the feelings and sentiments of their constituents.

Resolved, That a copy of these resolutions be forwarded by the secretary to Mr. W. T. Gunter, and to the SENTINEL and *Standard* to be published with the request that State papers copy generally.

On motion the meeting adjourned.

THE HONEY BEE.

MR. EDITOR:—We propose through the columns of your paper, to present a series of letters on the natures and habits of the honey bee.

In the first place, a colony of bees in a normal condition, consists of three distinct kinds. A queen, workers and at certain periods of the year, drones. The queen claims our attention first, laying all the eggs in the hive, she is truly the parent of the entire population, drones as well as workers. There is an erroneous notion among some bee-keepers, that each hive has a king. Yet, whatever be the special apiarions of some, the large majority of intelligent opinions everywhere concur in assigning to her the character she can justly claim—that of being the common mother of the family. So long as she is present in the hive, all the eggs found therein are laid by her. The truth of this may readily be ascertained by introducing an Italian queen among common bees. All the young subsequently hatched from her eggs, both workers and drones will show their distinct race. The queen possesses the ability to lay male and female eggs at pleasure, according to the needs of the colony. That she has this ability is an undeniable fact, however difficult it may be to account for, or explain it. One positive proof of the fact is this, take a queen that has never left the hive for the purpose of mating with a drone, and all her progeny will be drones.

From every female or worker egg a perfect female or queen can be reared, if it be developed in a wider and longer vertically placed cell, supplied plentifully with the requisite food. It is not, however, indispensable that the egg should be originally deposited in such a cell. The bees can transform a common worker cell to a royal cell, even after the larva therein is several days old, by widening that portion not yet occupied by the larva, supplying it lavishly with a peculiar food called royal jelly, and then lengthening it downwards.

It is remarkable, too, that the queen, though more fully developed than the worker, yet emerges from her cell five days sooner. She usually leaves the cell on the 16th day after the egg is laid. But if a populous colony be deprived of its queen, and the bees transform a worker cell in which the egg has hatched, into a queen cell, then the young queen will issue about the 12th day.

When selecting a larva for the purpose of rearing a queen, the choice seems to be determined by the location of the cell. It must be so situated that it can be conveniently widened and extended downwards, without involving the destruction of brood, though, when absolutely necessary, brood situated in lower cells will be sacrificed.—Cells on or near the edges of the combs, or on the margin of interior passages, are usually preferred. The royal cell is used only once for rearing a queen, the bees subsequently destroying it wholly or in part.

PENNSYLVANIA LEGISLATURE—MESSAGE OF THE GOVERNOR—STATE DEBT, &C.

HARRISBURG, PA., January 5.—The State Legislature has completed its organization. In the Senate, Charles H. Stinson was elected speaker. From the Somerset district two certificates were presented—one of Findley, democrat, signed by all the return judges, and one of Scull, republican, signed by only one man. The papers were referred to a committee. In the House, B B Strang, of Tioga, was elected speakers, and Gen. Selfridge chief clerk.

Gov. Geary's message was sent in at noon to day. The receipts of the State Treasury during the year were $5,341,000; the expenditures $4,850,000, including $413,000 towards the reduction of the public debt, leaving a balance in the treasury of $14,900. The total amount of the State debt is $32,814,000. The total reduction of the debt since January, 1867, has been $4,889,000.—He recommends the establishment of a home for disabled soldiers, as a refuge for those now compelled to beg a livelihood in the streets of the city.

The Avondale disaster is referred to, and a law enforcing stringent regulations to prevent the recurrence of such calamities is recommended. He recommends an additional judge for the Supreme Court as a public necessity. He deprecates the movement made by free-traders to obtain the introduction of steel and iron free of duty. He favors the recognition of Cuba, and says it geographically belongs to the United States. He advocates the policy of expansion of the currency by new national banks to be established where none now exist.

THE BARNWELL CONSPIRACY.—Some days since the "Chronicle and Sentinel" gave an account of a conspiracy formed by negroes in Barnwell district, South Carolina, which had for its object the murder of Mr. William Ashley, but which was revealed by one of the conspirators and frustrated. After Mr. Ashley became aware of the plot the Barnwell "Sentinel" says that six of his neighbors collected at his place, and about 9 o'clock that night the would be murderer, Edmund, commenced by firing the woods and fencing, expecting Mr. Ashley would call out the hands and go to arrest the flames. About one hour after the alarm was given, and when he thought all safe, Edmund and one or two more came. Edmund then entered the house armed with a club, axe and a five barrel pistol. Mr. R. C. Ashley was sitting about the middle of the house, and as he entered he gave him the contents of one barrel of his gun, containing fifteen buck shot, in his breast.—He ran about one hundred and fifty yards and fell dead leaving his axe about fifty yards from whence he was shot, but held on to his pistol to the last, and a bag which he had provided himself with for the purpose of carrying off Mr. Ashley's gold.—Edmund's accomplices made their escape, and it is much to be regretted, as they came with him to the house, that each of them did not share the same fate. The plan was to kill and rob Mr. William Ashley first, then to kill Mike Sanders and Peyton Ashley (colored men) burn R. C. Ashley's Gin House and then leave for Southwestern Georgia.—*Augusta Chronicle.*

WILMINGTON, CHARLOTTE & RUTHERFORD RAILROAD.—We are requested to state that no order has been issued by Dr. Sloan for the suspension of work on the Eastern Division of the Wilmington, Charlotte and Rutherford Railroad. It has been determined, however, to concentrate the labor for the present on that portion of the Eastern Division between Lilesville and the Pee Dee river, including the bridge now building over that stream. The object of the officers is to endeavor to complete the work as it progresses in order that every mile may be made available for transportation at the earliest possible moment. The cash means of the Company are limited, and they do not wish to go on the market with their bonds while these securities are selling at such ruinously low prices. Hence their determination not to extend their labor over too wide a field. Work on the portion of the road named is progressing as usual, as we are informed by the Superintendent.—*Wil. Star.*

SALE OF THE WILMINGTON AND MANCHESTER RAILROAD.—At the COURT HOUSE door at 11 o'clock a. m. yesterday, Messrs. Cronly & Morris proceeded to sell, by order of M. Cronly and W. A. Pringle, Commissioners, the Wilmington and Manchester Railroad, together with all the property of the Company. W. T. Walters, Esq., of Baltimore, was the only bidder, and the property was consequently knocked down to him at $525,000—the sum of $250,000 being paid for the South Carolina end, and $275,000 for the North Carolina end. The sale was for cash, but certain preferred bonds will be received in payment. Of these preferred securities the purchaser holds $1,975,828-00. There is but a small amount of the whole series of preferred securies that he does not hold, and which he will have to pay.—*Wil. Journal.*

HORSES STOLEN.—On last Saturday night a bold robbery was committed in our town. Some unknown persons stole two very fine horses from D. H. Starbuck. They also stole two saddles and bridles from M. V. Faircloth, and a halter and a saddle cloth from Dr. Wheeler. The theft was committed early in the night, and with such deliberation and knowledge of the premises that it is evident they were experienced hands, and had confederates who were well acquainted in the place.—*Winston Sentinel.*

ACCIDENT.—We are sorry to learn that Mr. W. D. McAdoo was badly hurt a few days since, by the overturning of his buggy. We have not learned the extent of his injuries, only that they are not serious, though very painful.—*Greensboro Patriot.*

The rascal who entered Mr. R. N. Caldwell's Store some two weeks since has been apprehended, and most of the stolen property recovered. He turns out to be one Charley Birch, of Caswell, and is a most notorious thief.—*Greensboro Patriot.*

THE LEADER OF AN ORCHESTRA DIES IN HIS SEAT IN AN OPERA HOUSE.—At Albany, N. Y., on Monday night, during the performance of the overture to the "Crown Diamonds, at the Trimble Opera House, Professor Louis Undernir, leader of the orchestra, was observed to cease playing and drop his head upon his breast. A portion of the audience, thinking him under the influence of liquor, hissed, but those nearer him rushed toward him, and found him to be dead. Deceased was well known and much respected.

[From the Hartford Times]

THE WAR—IT GOES ON—THE GOVERNMENT DISREGARDED.

The Radical party have decided to reconstruct States of this Union, when they see fit. They use the great power and large sums of the public treasure which have been put into their hands, in the reconstruction business. They always reconstruct a State in violation of the wishes of the people, and use the standing Army and Navy to do the work. Under the pretense of reconstructing "rebel States," they are in fact reconstructing all of the States of the Union—changing the constitutions and laws of all, and the monstrous job is accomplished by cannon and bayonet.

No tyrant or set of tyrants, ever yet took away the liberties of the people, without some pretext. Usually the wickedness has been accomplished in the name of Liberty. The Radicals are violently changing the State Governments, in the name of "Loyalty," which belongs to despotism. They are forcing constitutional amendments by the army—not in a time of recognized war, but in a period of profound peace, five years after the close of the war. It is in violation of the Constitution, wicked in its conception, and monstrously so in its execution.

The Radical caucus is gas a decree, and then executes it at the cannon's mouth.—There is no greater tyranny—no more complete concentration of power in Russia or Prussia.

Step by step—boldly and by the aid of the sword—is the Radical party binding the hands of the people with strong withes. They reconstruct a State. If it does not do their bidding, if the people dare to exercise their privilege of self-government—the State is again declared to be under military rule—again ordered to do the bidding of the masters—again directed, with bayonets encircling its borders, to change its laws; and to aid, against the will of its people, *in changing the Constitution of the United States*, which change takes the regulation of the ballot from every State in the Union!

How long is this work to last? When is a State reconstructed? When is this business to be settled, and the country allowed to remain in peace? for this is the work of war, not peace—the decision of standing armies, the decree of the sword. When is it to cease? Never, so long as the Radicals rule; for they have decided that a State reconstructed so as to vote for President, elect members of Congress, make laws involving life and death, and to regulate the legal affairs of a million of people—with all the departments of government, legislative, executive, judiciary, in full operation—may be turned into chaos, and all of its citizens placed as prisoners in the hands of the army, subject to army decrees, at any time when Congress shall see fit to order the army to seize the people.

Where did Congress get this power? When is war, usurpation, tyranny, to cease? A "republican form" of government! The central power at Washington whistles it down the wind.

MARRIED IN JOKE.—The following is from the St. Louis *Republican*:

Thirty years ago, when Charleston, Ill., was in an embryo state, Dick Stoddard was caught napping for the first time. Dick was at a party, a country dance, and had been playing his tricks on the boys and girls, when it was proposed to enliven the company with a matrimonial scene. All things being ready, save the bride and groom, two very essential parts of the ceremony, they were soon procured in the persons of the at-resaid Dick and the beautiful and accomplished Miss ——, the belle of the whole country, who, like Dick, was full of fun and of a romantic disposition.—The license was easily procured; so was the Justice. The ceremony was performed, and the bride and groom pronounced husband and wife. This, of course, was considered the joke of the season. Dick and his bride enjoyed it; so did the spectators. The Justice, however, had performed the ceremony; had the license, and knew the penalty for a failure to return it as the law directs, and being sworn to discharge the duties incumbent upon him as a Justice of the Peace, was legally and morally bound to return the license to the County Clerk, which he did, and where it is to this day with his certificate properly indorsed thereon to the effect that he had "duly joined in the bonds of holy wedlock" the parties aforesaid. Dick and his wife soon learned that what they had conceived to be a joke was a sad or joyful reality. So the matter was talked over, and they concluded to make the best of it. They have been living together ever since, blessed with a bountiful supply of this world's goods—a large family and a host of friends, and, as Dick says, they have been enjoying the joke ever since.

SYNOPSIS OF CUBAN NEWS.—The New York *Times* has information from a very reliable source that another expedition, composed of three hundred men, all Cubans, is being fitted out in that city. The Spanish detectives are displaying great activity in the matter; their force has been nearly doubled, and they have no doubt of being able to kill the project.

Colonel Ryan, the well known filibuster and Cuban expeditionary leader, has departed for Cuba to join the insurrectionary force with the rank of Brigadier General.

The latest accounts from Havana state that arrests, executions and transportations continue; a universal system of general espionage has been inaugurated, and the slightest movement or speech of not only those who are known sympathisers with the revolution, but of every Cuban, is watched attentively by keen eyes. That the Cubans are determined to persevere and try to gain the day, cannot be gain said, and that there are many resolute men among them is certain.

JAIL DELIVERY.—On Tuesday evening, about half past seven o'clock, eight prisoners confined in our jail made their escape. They were locked up in three cells, and by means of false keys unlocked their doors, and then forced the outer door at the foot of the stairs, and made their way into the street, where they were met by some twelve or fifteen men who were waiting for them. They were all negroes with one exception, John Williams, and five of them were under the sentence to the Penitentiary and were to have been taken to Raleigh on Monday next. Daniel Whitehearn, in jail for murder, was in a cell with three others was sick and not able to leave, and a negro girl, whose cell was not unlocked, are the only ones now left.

There is no doubt but this jail delivery was the work of the Union League, but we don't want any Militia—nary a one.—*Western Sentinel.*

IT IS THE PIONEER COMPANY OF THE SOUTH, in all the new and liberal features of Life Insurance, presenting advantages not offered by any other Company, note the following points:

1st. Low Rates of Insurance, with a credit of one third, the Premium as a perpetual Loan.

2d. THIRTY DAYS GRACE for the payment of all premiums, and the Policy held good for that length of time.

3d. Policies Non-forfeiting after the first payment.

4th. Policies indisputable from any cause save fraud.

5th. No restrictions of Residence, Travel or occupation.

6th. It is a Mutual Insurance Company ninety four per cent of the Profits are divided among the insured, on the contribution plan, and as money commands higher rates of interest in the South than North or East, the probability is almost certain that the dividends will exceed those of Northern Companies, this reducing the premiums to their lowest actual cost.

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo.

Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES H. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

MASS MEETING IN RALEIGH, ON THE 10TH OF JANUARY.

Leading gentlemen from various parts of the county of Wake have agreed on Monday, Jan. 10th, as the day for a grand Mass Meeting of the people in Raleigh, to express their views on the odious bill for the suspension of the writ of *habeas corpus*, and other public measures. The various districts will be well represented. Come one, come all, and join in a protest against the insidious attacks being made on your liberty.

We would call special attention to the advertisement of Dr. and Mrs. Lacy's School for Young Ladies. It requires no recommendation at our hands to the people of Raleigh. The next session begins on the 4th of February.

SERVICES AT THE M. E. CHURCH TO-MORROW.—Rev. Mr. Dally, who has been absent several days, is expected to occupy his pulpit, at the usual hour, to-morrow.

OFFICERS ELECTED.—At a meeting of Hook and Ladder Company, No. 1, held at the Court House, on Thursday evening, Jan. 6, 1870, the following officers were elected for the ensuing year:

F. Lamson, Foreman; W. D. Edwards, Assistant Foreman; T. L. Love, Secretary; J. G. Bert, Treasurer.

WE CALL attention to the announcement in another column, of board in a private family, convenient to the Capitol and the business part of the city. We know that Boarders, desiring a good comfortable Boarding house, will find it there, and we will take pleasure in giving information to any who may inquire at this office.

THE MARKETS.—Our Northern exchanges have not helped us any yet, in regard to market reports, as we have received no paper giving later intelligence than that given by telegraph before the strike.

If the telegraph reports are not resumed, we shall give the latest from the papers, but which will necessarily be two or three days old when they reach us.

We mentioned briefly, yesterday, that C. H. Snead and W. C. Massey brought before Judge Watts on a Bench warrant, underwent a partial examination on the charge of horse stealing, on Thursday night. Only one witness, Eugene Cox, was examined, and His Honor held Snead in a bond of $5,000 to appear again on Tuesday night next for further hearing, which was not given, and Massey not asking bail, both were lodged in jail until Tuesday night, when some witnesses for the prisoners will be heard.

Judge Watts acted with decision and with a sternness just short of severity, in view of the directness of the testimony and the coolness and enormity of the crime.

It appeared during the examination that armed negroes had gone to the house of Sheriff Hill at Smithfield and made hostile demonstrations in absence of Mr. Hill, and threats had been made against him by the league negroes, on the public streets.

Great credit is due Sheriff Hill for his firmness throughout this whole business.—He would have secured Yelverton, had he had the cooperation of a Justice of the Peace. But one of these, for the Township, was in jail, another drunk, and the third apparently very dilatory, it is said, in the discharge of his duty.

THE TELEGRAPHIC STRIKE.—The strike of the Telegraph operators is not yet ended; what the result will be, is yet uncertain. The New York *Herald* of the 5th gives us the progress of the affair up to that date, which is the latest we have on the subject.

In a correspondence between a Committee of Operators and the Executive Committee of the Company, the latter denies that any cause exists for the strike, as alleged, in California—no reduction of salary had been attempted or intended—the Superintendent in that State had simply removed two operators at San Francisco, because their services were not needed. The League, however, insisted that cause did exist and demanded the restoration of the operators, which was refused, whereupon the entire League resolved to continue firm in their determination not to go to work until their demands were complied with.

The operators at some points have given in, which the League look upon as only prolonging the struggle, declaring the belief that the Company will at last be compelled to accede to the guarantees they require. We have no intimation at present what the result is likely to be.

Since the above was in type, we learn that arrangements are in progress to recommence operations on the lines South, so we may expect our usual dispatches by next issue.

The Hudson River is open for boating from New York to Albany, a fact not known before, in the month of January, to the "oldest inhabitant."

The annual renting of pews took place in Beecher's Church last Tuesday night, when the aggregate exceeded that of last year, four thousand dollars. This shows that the Plymouth Church is becoming a popular place of amusement, and that Beecher piety is at a premium.

The New York Legislature assembled in Albany on the 4th inst.—the first Democratic Legislature of that State for over twenty years. Lieut. Gov. Allen L. Beach, presided over the Senate; Hon. Wm. Hitchman was elected Speaker of the House.

After the organization and the reading of the Governor's message, resolutions of sympathy for Cuba were introduced.

PURCHASE OF SAMANA BAY.—As soon as Congress comes together the President will lay before that body the papers relating to the negotiations looking to the acquisition of the Bay of Samana and prospectively the annexation of the entire Dominican portion of the island.

SUPREME COURT.

Friday, January 7th.—Court assembled at the usual hour—all the Justices and the Attorney General, being present.

Hon. E. W. Jones, Thos. J. Jarvis, Esq., and Josiah Collins, Esq., were in attendance.

Cases from the 1st and 2nd Districts were disposed of as follows:

Carney *vs.* Carney, from Pitt; Walston *vs.* Bryan, and Norfleet *vs.* Cromwell, from Edgecombe, peremptorily called and continued to next term—no counsel appearing. Roper *vs.* Roper, from Hyde, abated at cost of the appellant.

Winslow *vs.* White, from Perquimans, put to the end of the Docket.

Court adjourned till to-morrow 10 A. M.

A Wonderful Southern Discovery.—In the South shore Liver complaint and billious diseases prevail to so great an extent, there has long been felt a need of a medicine that would act *specifically and promptly on the Liver*, restoring it to its normal functions, and at the same time be safe from after effects, and yet so simple that it might be used by any one. It is claimed that DR. TUTT'S VEGETABLE LIVER PILLS supplies this want. They act directly on the Liver, their constant use will not injure in the slightest degree the most delicate constitution. Females at any period may use them with great benefit, and realize great relief from the distressing nausea which they experience at certain times. These pills are not recommended as a *universal cure all*, but simply for diseased Liver, and those maladies which follow a derangement of that important organ, such as Dyspepsia, Headache, Indigestion, Loss of Appetite, Costiveness, Piles, Jaundice, Sour Stomach, Ladies Heartburn, Chills and Fever, Foul Breath, Restlessness at night, and Flatulency. These invaluable pills may be found in every Drug Store of any note in the South and West.

Strikes are the order of the day. The telegraph operators of thirty-four principal cities are now on a strike, on account of the alleged reduction of the wages of two operators in San Francisco. Nearly all the operators, male and female, in this city have joined the strike. Business is not stopped, only retarded, however. The cigar-makers of New York have also struck on account of a general reduction of wages.—The shoe clerks are preparing for a demonstration. In Boston yesterday the dirt diggers at Fort Hill threatened a riot because their wages were lowered. Other trades and vocations are expected to follow. —*N. Y. World.*

PARIS.

Paris, Jan. 4, 1870.—It is reported that the new Ministry will declare for and accept the programme of the right centre.

The *Patrie* publishes some correspondence between M. Olivier and M. Pierre Magne to prove that the latter advised the admission of members of the right and left centre into the ministry.

The Ministers were received this afternoon by the Empress Eugenie, who gave them a very gracious welcome.

The *Rappel*, one of the organs of the irreconcilables, has been prosecuted for breach of the press laws in an article favoring political organizations among the soldiers.

SPAIN.

Madrid, Jan. 4, 1870.—A decided negative has been received from Italy in the matter of the candidature of the Duke of Genoa.

As a consequence General Prim and all the rest of the ministers have resigned.

The ministerial crisis continues.

The telegram from Florence announcing the negative of Italy was received here on Sunday; but its publication was suppressed by the authorities until to day.

For two days the government has been in a state of indecision as to what course to take.

The Duke of Montpensier was expected to arrive here this morning; but his friends have telegraphed that he cannot come on account of the situation created by the action of Italy.

ROME.

Rome, Jan. 4, 1870.—A general congregation of the Council was held at the Quirinal yesterday. The Pope was not present, and the Cardinal presiding by right of age, announced the recent death of four Cardinals.

The appointment of Cardinal Billo as president of the Commission on Dogmas, and of Cardinal Caterini as president of the Commission on Ecclesiastical Discipline, was promulgated.

The Council is in session again to day, and the business of organization continues.

ENGLAND.

LONDON, Jan. 4, 1870.

The London *Times* this morning in commenting on the democratic-American advocacy of repudiation says:—"To fears from that quarter is due the fact that the American bonds, bearing twice the interest, are not as near par as consols.

The Stock Board declines to quote Erie Railway shares unless they are stamped by the Protective Committee of London appointed to guard the interests of the shareholders.

LONDON, Jan. 4—P. M.

The resignation of the Spanish Cabinet in consequence of Italy's refusal to permit the candidature of the Duke of Genoa is announced officially.

It is reported that Admiral Topete will return to the Ministry.

IRELAND.

Dublin, Jan. 4, 1870.—The contested election for a member to serve in the imperial Parliament for the county of Longford has ended, Mr. Fulke Southwell Greville Nugent, a liberal and Gladstone radical has been returned, defeating Mr. John Martin, a political convict, the Fenian candidate. The member elect belongs to a younger branch of the family of the famous Earl of Warwick and has already sat in Parliament for Longford.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜

is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists

SHAKSPEARE'S AUTOGRAPH.—Peter E. Abel, Philadelphia, has published "The autograph of William Shakspeare, with fac similes of his signatures, as appended to various legal documents; together with 4,000 ways of spelling the name, according to English orthography. By George Wise." This interesting monogram is handsomely printed on superfine tinted paper, in clear, legible type, with broad margins. It was "set up" by the author, a practical printer. The essay gives the history of the five undoubted shakspeare autographs yet known, where they may be seen, and their present condition. The fac-similes have been faithfully copied from and compared with the originals, and undoubtedly may be relied on as correct. The 4,000 ways of spelling Shakspeare's name exhibit singular legerdemain, and a portion of them, heretofore published in another shape, have attracted great attention, both here and in Great Britain.

IRON-CLAD SHIPS.—The *Navy Archive*, an Austrian periodical, contains the statement that a new invention has been proposed to the Emperor Napoleon which greatly diminishes the destructive effect of projectiles. The material employed for this purpose is a kind of felt, the composition of which is the secret of an Italian named Muratori. This felt, prepared by powerful engines, is cast into moulds like melted metal. When it gets cold it resists the effect of balls like the best steel. Used for uniforms, it resists blows by a sabre or the balls from a revolver. Used as an armor, it resists the ball from a chassepot gun, if it is fired at one-half of its range, and it considerably diminishes its effect when fired at a nearer distance.

Whether or not these statements are correct, will soon come to light. If they are, which might be tested without much expense at one of our navy yards, the invention would be invaluable.

VALUABLE PROPERTY FOR SALE.

WILL BE SOLD TO THE HIGHEST BIDder, on the 15th day of January next, at the Court House door in the Town of Louisburg, the valuable property known as the "Pierce Mills" with EIGHTY-EIGHT acres of land attached. The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 58 policies, received an income of seventy-eight thousand dollars, and possessed assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 537 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
